INTRODUCTION

ECI and Information Technology (IT)

Easier delivery of services & access to electors.

1. On-line application for Electoral Roll
2. Electoral Roll search facility on website, through SMS & Mobile App
3. Polling Station locations on maps on ECI website
4. Call centre with 1950 for public grievances/information/help

Ensuring Greater Transparency

1. Displaying affidavits of candidates indicating personal, financial and legal status for public view
2. Electoral Rolls on the website
3. Use of Poll Day Live webcasting from Polling Stations

Better Election Management

1. Observer Management system
2. Poll monitoring
3. Election Monitoring dashboard for officers at all levels
4. EVM tracking through software
5. Trends and result live dissemination through Portal
6. Know your Candidate

INTRODUCTION

ECI has been keeping pace with Technological changes in order to:

- Bring improvements in electoral process
- Transparency and speedy conduct of elections
- Enhance people participation in electoral process
- Almost every Election process is being supported by IT

Major IT Interventions introduced are:

- Computerization of Electoral rolls
- Issue of unique EPIC to all electors
- Use of Electronic Voting Machines
- Use of IT in Elections planning, conduct and monitoring
- National Grievances Service and Access to Information

THANK YOU

Dr. Shantanu A. Gauns

NLMT, Goa – 9673108761, 7066044379 (WA)

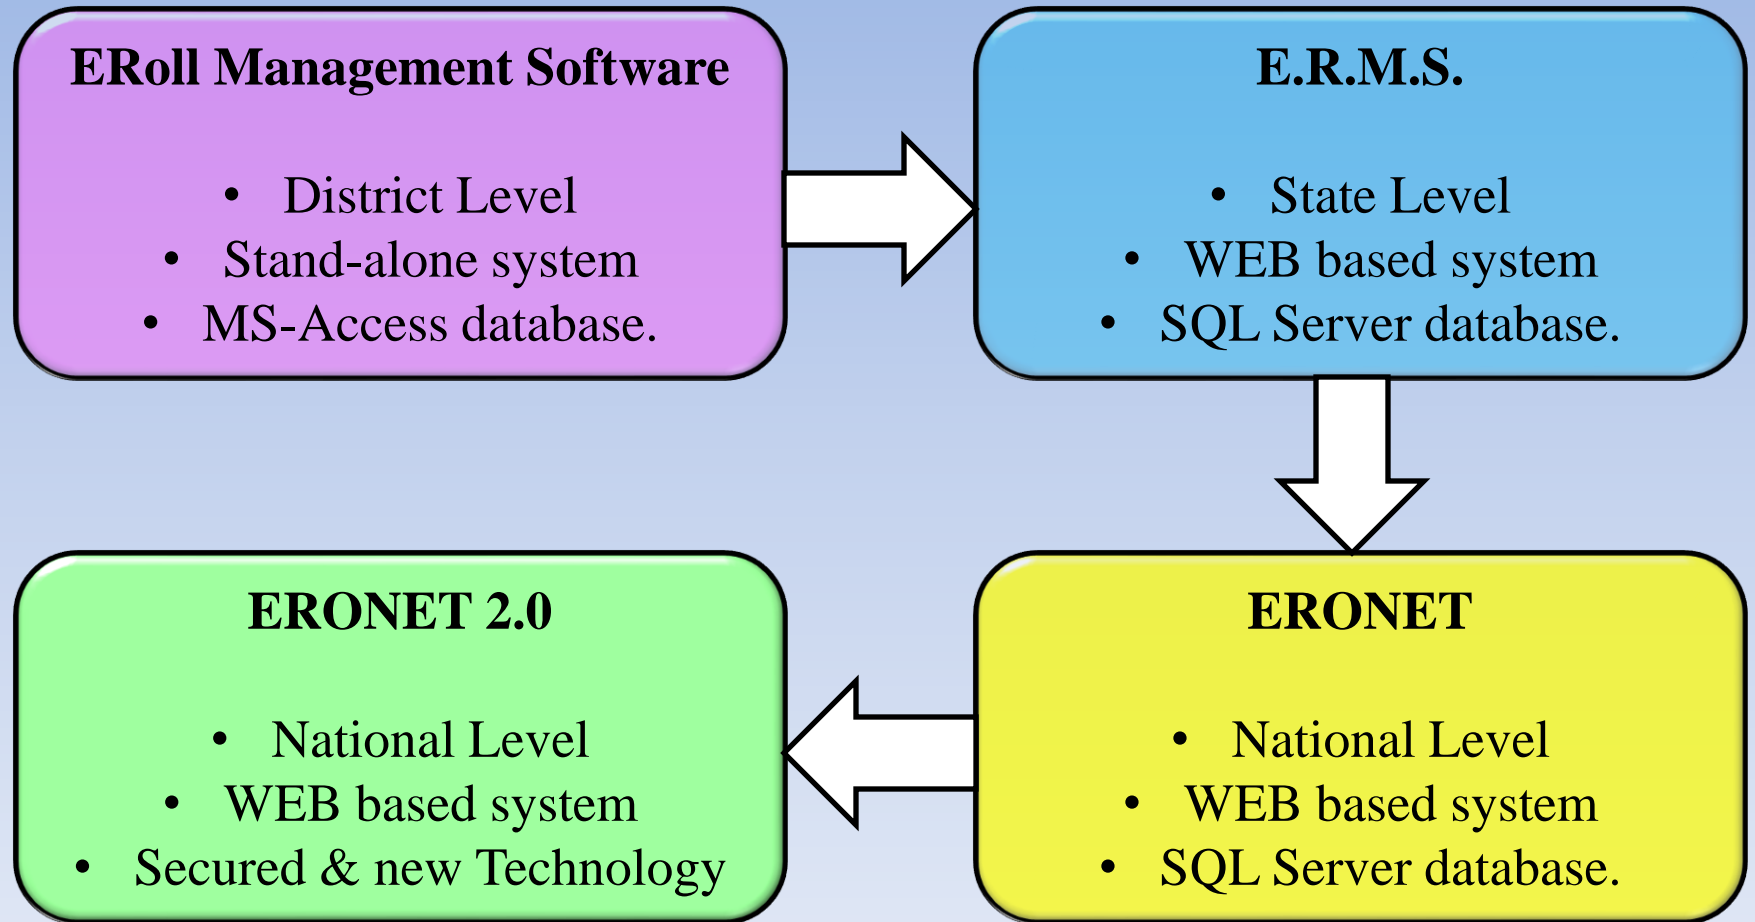

Introduction

| Phases | Description of use of IT during Election phase by ECI |
|---------------|--|
| Non Election | In this continuous phase, the voters register into the system and there are no major elections scheduled |
| Pre Election | Generally 1 year / 6 months prior to elections and extends up date of election announcement and is characterized by Election Planning and preparation. |
| In Election | This most important phase starts from the date of the election announcement, runs through the poll day and ends on the conclusion of counting. |
| Post Election | This phase signifies the time when the reports are generated and post audits are done after the end of the elections. |

ERONET - HISTORY

- Electoral Roll is the main document to conduct any election
- Three types of voters in India: General, Service and Overseas electors
- Major milestones
 - EPIC : 1993
 - Computerization of Electoral Roll: 1997
 - Photo Electoral Roll : 2005
 - ERMS (District > State level) : 2016
 - ERONET (National level) : 2017
 - ERONET 2.0 : 2022

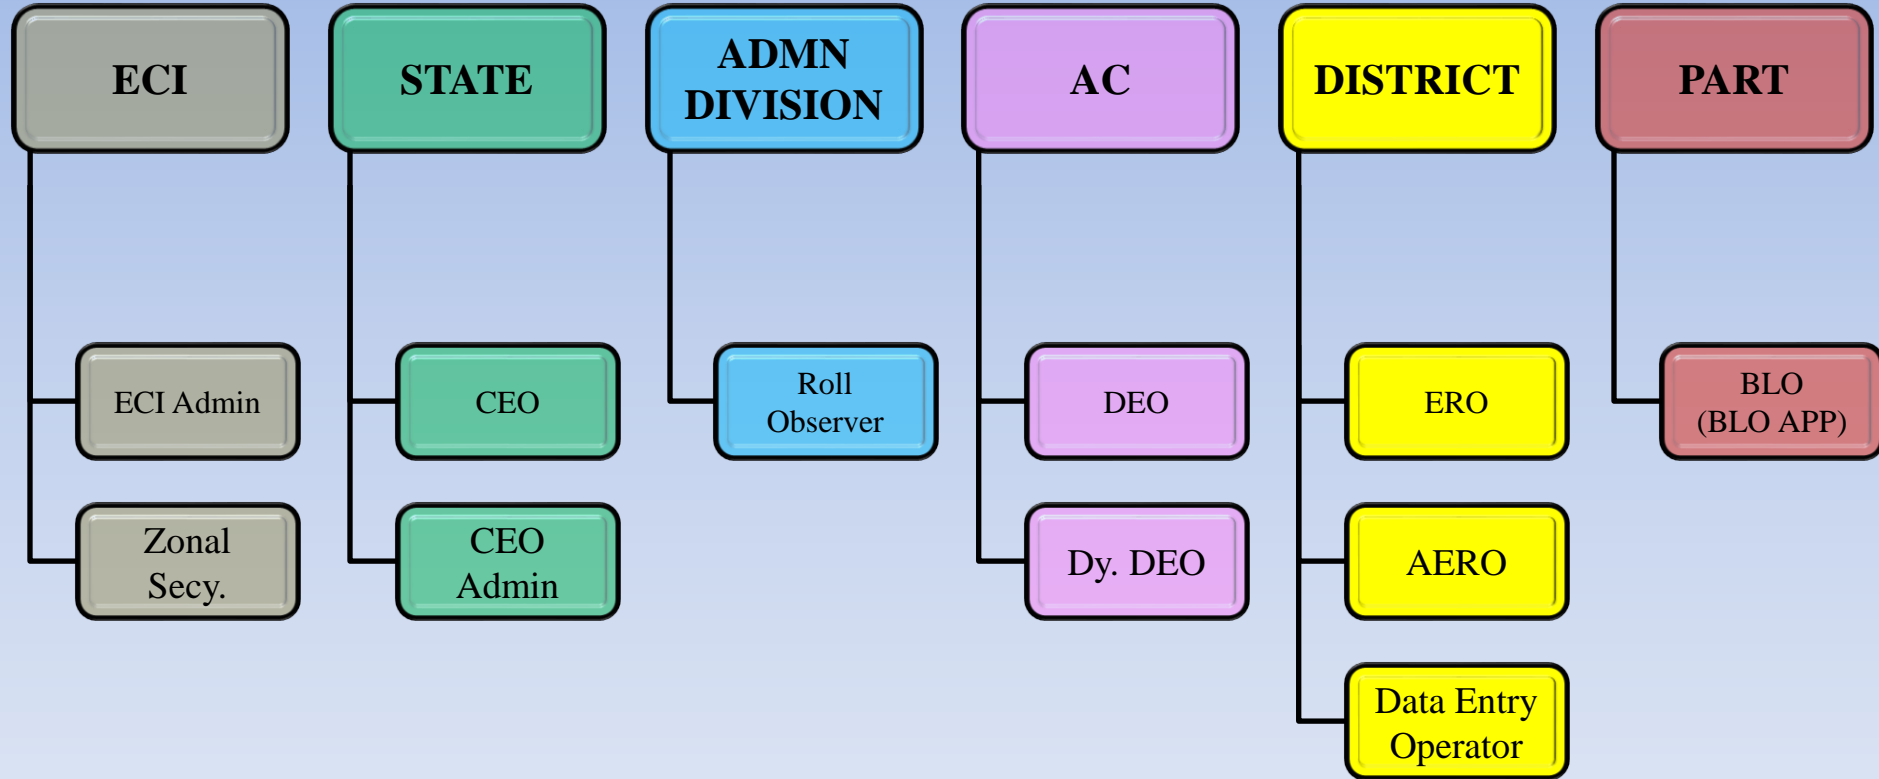

ERONET - JOURNEY OF EROLL MANAGEMENT SOFTWARE

ERONET - FEATURES

- Single App & Single Portal to all
- Vibrant infographics Dashboard
- Alerts, Flags, Auto Messages, Emails, Ntn.
- Customized filters
- New technology & Securities
- Net Platform For E-Roll & EPIC
- Know Your Polling Booth Location
- Online Form Processing
- Form Processing Summary of Online Forms
- Processing Offline Forms
- Auto Serialization of Elector data
- Tools for Rationalization
- Transparency & Accountability
- Group wise validation of forms
- Roll based access & Audit Trails
- Control Table Management
- Easy ERoll updation
- Voter Services Mobile Application
- Uniformity and Accuracy
- ERO-NET2.0 Mobile Application

ERONET - ROLE BASED ACCESS – ERONET 2.0

ERONET – USER MANAGEMENT

Verify & Login

■ Login Dual Authentication:

1. Login user ID and Password
2. User enter the Captcha
3. User verification using OTP sent on users mobile

■ Profile Editing:

1. User makes changes in their profile
2. Request will be sent for approval

■ Invalid Attempts:

1. Users locked for 1 Hour after 10 invalid attempts
2. After 1 hour account is auto unlocked.

ERONET - PASSWORD POLICY

▪ PASSWORD

- Expires after **every 90 days** for all accounts.
- Must be at least eight characters long
- Must have at least one digit ('0' to '9').
- Must have at least one special character.
- Must have at least one uppercase ('A' to 'Z')
- Must cover the standard English alphabet (upper & lower case) along with special characters on the keyboard (Example: !, @,], }, ~, etc.)
- Mobile number can be only 10 digit

ENCORE

ENabling COmmunication in Real time EEnvironment

ENCORE TREE

Candidate Scrutiny

- Process of marking nomination as Accepted / Rejected / Withdrawn.

Election Permission

- Permission module allows the candidates, political parties or any representatives of the candidate to apply for the permission.

Voter Turnout

- Poll day activity performed by RO's to provide 2 hourly report of estimated voter turnout in different slots.

Index Card

- This enables RO's to fill the Index card online after counting that contains each detail of elections since election declaration to results.

Candidate Nomination

- Digitization of nomination form to create database of candidate that used in various election process

Affidavit Portal

- This allows citizens to view the complete list of Candidate Nominations who have applied for the elections and their affidavits

Election Counting

- Application is being used to capture data entry round wise for counting and result dissemination

Expenditure Monitoring

- The Online application of expenditure provides for capturing of expense by candidate over public meetings, posters, banners, vehicle, and ceiling for candidate expenditure.

Login Process

ENCORE Login Process

Hierarchy of Registration

- ECI admin will register CEOs
- CEO then register all DEOs
- DEO then register all ROs

Registration of Election Officials

Requirements:

1. Email Id of the Official
2. Valid Mobile Number

Election Official Sets the Password

Receives:

1. Registration link on email
2. OTP on mobile number

- **Forgot password issue:** ROs can use 'Forgot password' option to set a new password, if forgotten.
- **Reset password issue:** CEO user can send link for reset password in case the RO user got changed or not able to use Forgot password option.
- **Wrong user details:** ROs and CEO office to ensure the details of users at AC and district level are correct, Else issues during Form Printing & Result Panel.
- **Wrong AC- DISTRICT mapping:** Ensure it is correct and verified.
- **Wrong Polling Station data:** ROs must take care that ENCORE use Polling station data from EMS. So it should be updated well before Poll else will reflect wrong in all ENCORE modules

Online Nomination

encore.eci.gov.in

WHAT IT DOES ?

- Digitize Nomination forms
- Enter multiple nominations of candidates
- Upload Candidate affidavits & counter affidavits

WHAT IS EXPECTED IN ADVANCE ?

- All officers accounts must be activated well before the notification date
- Arrangement of Scanner(s) to scan photo and affidavits
- Computer to upload Candidate affidavits and photo

Candidate Nomination Process

- Returning officers need to digitize the candidate details such as Name, Father's Name, Address, Age, Photo), Party details, etc. as mentioned in the nomination papers.
- Candidate Name, Address need to be entered in state language also.
- Multiple nominations management: If candidate has applied multiple nominations, RO need to enter all nominations in system.

Each of these nominations will be assigned a unique nomination id

Candidate Nomination Process

- RO needs to upload the scanned copy of the *Candidate affidavit and counter affidavit*.
- The affidavit need to be scanned in a single pdf file that must be *properly oriented, readable and less than 10MB of size*.
- Complete candidate profile and affidavits will also be available in the *public domain*.
- The information entered will be used in all the Statutory reports, FORM 7A, Ballot generation, Voter helpline app and the Results.

Candidate Nomination Process - PITFALL

- *Wrong Candidate nomination details*: ROs to ensure correct and timely entries of each nomination. These entries will be widely available through Affidavit portal, VHA & Results portal.
- *Candidate names in State Language*: Names in local state language are must to be entered in UNICODE.
- *Wrong Candidate photo*: ROs should ensure to upload correct candidate photo.

Candidate Nomination Process - PITFALL

- Party or Symbol not available in ENCORE: If such cases, ROs should immediately inform the ECI through the CEO office as this needs to be updated in concern with the political party division of ECI that may take time to process.
- Wrongly entered Multiple Candidate Nominations: ROs to ensure that, if same candidate has applied multiple nominations, then it should be entered through multiple nominations option only.

- Candidate not able to login Candidate App: Candidates will be able to login with the mobile number provided in the nomination paper and entered in the ENCORE.
- Wrong uploading of Affidavit and Counter affidavit: ROs to ensure careful and correct uploading of this data, as it is public through Affidavit portal and VHA. ROs must verify the entered data before and after uploading.
- Poor scanning quality and file size: It should be clear, well oriented and Max10mb of file size is allowed for each affidavit.

ENCORE : CANDIDATE SCRUTINY

Candidate Scrutiny

encore.eci.gov.in

WHAT IT DOES ?

- Marks Scrutiny Status & Assign symbol
- Finalize the List of Contesting Candidates
- Generate Online Ballot and Form 7A

WHAT IS EXPECTED FROM RO ?

- Ensure that entered nominations data is correct
- Ensure that correct affidavit is uploaded against each candidate
- Candidate details on affidavit portal are verified

ENCORE : CANDIDATE SCRUTINY PROCESS

- This module of ENCORE facilitates the ROs to do the scrutiny of the Nomination filed by the Candidate.
- Scrutiny: Each nomination is verified and the status is marked as 'Accepted' or 'Rejected', on the day of scrutiny.
- Mark Validly nominated candidates: Out of accepted nominations, the valid nominations will be marked validly nominated as 'Yes' to single out the nomination out of multiple nominations applied by the same candidate.

ENCORE : CANDIDATE SCRUTINY PROCESS

- Mark Withdrawal and assign symbol as per extant rules.
- Finalizing the List of Contesting Candidates and online generation of FORM 7A and Ballot.
- While the RO is scrutinizing the candidate nominations, the output of this application is displayed to the candidate via Candidate app, to citizens Affidavit portal, Voter Helpline and PwD App.
- Thus both the candidate as well as citizens can follow the acceptance or rejection status of the Nomination.

ENCORE : FORM 7A ONLINE GENERATION

FORM 7A

[See rule 10(1)]

| अन्य उम्मीदवारों | | | | |

ENCORE : CANDIDATE SCRUTINY PROCESS

- Scrutiny status wrongly marked: ROs must ensure the correct scrutiny status is marked and all nominations to be either marked and accepted or rejected.
- Multiple nominations wrongly marked as 'Rejected': ROs must ensure that all multiple nominations applied by the same candidates should be marked as 'accepted' if documents of all are correct.

And after that only one should be marked as Validly nominated 'Yes'

- Contesting candidates list not finalized: ROs must ensure to click the finalize button after complete verification of candidates details as only after that the list will be available for public view through Affidavit portal.
- The contesting candidates details are not matched with FORM 7A: ROs must ensure that the data of contesting candidates and the sequence should be exactly as per FORM 7A

ENCORE : PERMISSION MANAGEMENT

WHAT IT DOES ?

Permission Management

suvidha.eci.gov.in

- Allows the candidates, Political Parties or any representatives of the candidate to apply online for permission through SUVIDHA Portal for:
 - Meetings
 - Rallies
 - Temporary offices
 - Others

WHAT IS EXPECTED FROM RO ?

- Mapping of all Master data
- Creation of all Nodal Officers.
- Uploading of all permission formats
- Update authorization level for each permissions

ENCORE : CANDIDATE PERMISSION PROCESS

- Permission module allows the candidates, political parties or any representatives of the candidate to apply online for the permission for meetings, rallies, temporary offices, and others through SUVIDHA Portal <https://suvidha.eci.gov.in/>.
- The application goes live after the election dates are announced.
- The Candidates can also track their application status through the same portal and also by using Candidate App

ENCORE : PERMISSION PROCESS FOR OFFICERS

- RO has the facility to process these applied permissions through ENCORE permission module <https://encore.eci.gov.in/> .
- Mark the status of the application as ‘Accepted’ or ‘Rejected’ alongwith the uploading of order copy for the applicant.
- Facility available for digitization of offline form. If the applicant has been manually applied for permission, then RO processes the same online.

ENCORE : PERMISSION PROCESS FOR OFFICERS

- Before making the application live, the CEO, DEO and the ROs have to update all the master data (Permission assigned level, Police station, Approval authority, locations, permission cell in charge, etc.) that will be directly used in the online application by the applicants.
- All the Nodal Officers need to be registered in the ENCORE that will allow them to use the ENCORE Nodal App and to update their comments (Objection/No objection) on the permissions applied.

- Permission master data: CEO office should update required documents and departments for NOC for each permission type.
- ROs to update Nodal officer details for each department.
- Suvidha Nodal App: Nodal officer can use the App only if his active mobile No. is registered in ENCORE by RO for respective department.
- Wrong AC- Police station mapping: DEOs need to correctly map the Police stations for each AC

*Affidavit
Portal*

affidavit.eci.gov.in

WHAT IT DOES ?

- Displays complete candidate profile
- Scrutiny status
- Affidavits and Counter affidavits
- Contesting candidates list as per FORM 7A
- Displays size of the affidavit

ENCORE : AFFIDAVIT MODULE PITFALL

- Awareness for affidavit portal: All ROs must be aware of this ECI Candidate affidavit portal as this portal *data is in public domain*.
- Wrong data display: ROs must ensure correct data entry in ENCORE, since the same data is displayed on Affidavit portal.
- Affidavits not available: ROs must enter details & upload the affidavit in ENCORE *on the same day* as and *when it is submitted* by the candidates.
- Affidavits are not downloadable: After uploading affidavits in ENCORE, ROs must check that it should be downloadable from affidavit portal

- *Incorrect Affidavit uploaded*: ROs must ensure the correct affidavit is uploaded against respective candidates. If by chance wrong affidavit is uploaded, it should be immediately replaced with the correct one.
- *Contesting candidates list is not displaying on portal*: The list of contesting candidates will be displayed only after its finalization in ENCORE.

ROs must check the list and complete details on affidavit portal immediately after finalization

ENCORE : VOTER TURNOUT

Voter Turnout

encore.eci.gov.in

WHAT IT DOES ?

Provides real-time dissemination of Voter Turnout trends to Election officers & Citizens.

Two hourly estimated voter turnout

PS wise Voter turnout

End of Poll Turnout
(male, female & other)

Voter Turnout App

WHAT IS EXPECTED FROM RO ?

- PS data must be updated in EMS and ENCORE
- Electors data must be updated & verified before Poll day
- Mechanism for Correct data collection from PS

VOTER TURNOUT APP : PROCESS

- This part of ENCORE facilitates ROs to enter Two hourly 'estimated voter turnout' percentages at specific intervals during the Poll.
- If anyhow the entry for estimated turnout got missed then it can be entered by the DEO login
- After the end of Poll, a detailed voter turnout consisting of male, female and others voters are then entered into the system.
- Polling station wise voter turnout need to be entered once the data from all presiding officers is compiled.

VOTER TURNOUT : DATA ENTRY CYCLE

End of Poll

Returning officer needs to fill all the detailed data of voter turnout by the end of P + 1 Day. After that update will not be allowed.

Close of Poll

RO can fill the close of poll data from 07:00 PM to 12:00 AM on poll day. Updation for close of poll will end in mid night on poll day.

05:00 PM - 05:30 PM

All the process remain same as 03:00 PM to 03:30 PM slot.

03:00 PM - 03:30 PM

All the process remain same as 01:00 PM to 01:30 PM slot.

09:00 AM - 09:30 AM

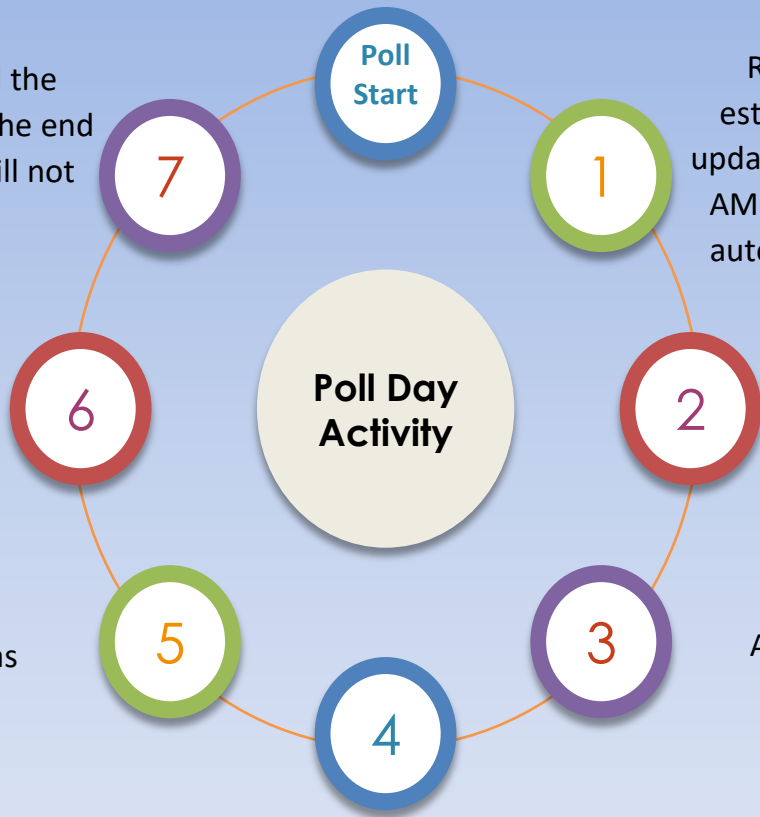

Returning officer can start updation of estimated turnout from 09:00 AM. RO can update data as many time as he wish till 09:30 AM. Slot get closed and data gets published automatically at 09:30 AM as the final data.

11:00 AM - 11:30 AM

All the process remain same as 09:00 AM to 09:30 AM slot.

01:00 PM - 01:30 PM

All the process remain same as 11:00 AM to 11:30 AM slot.

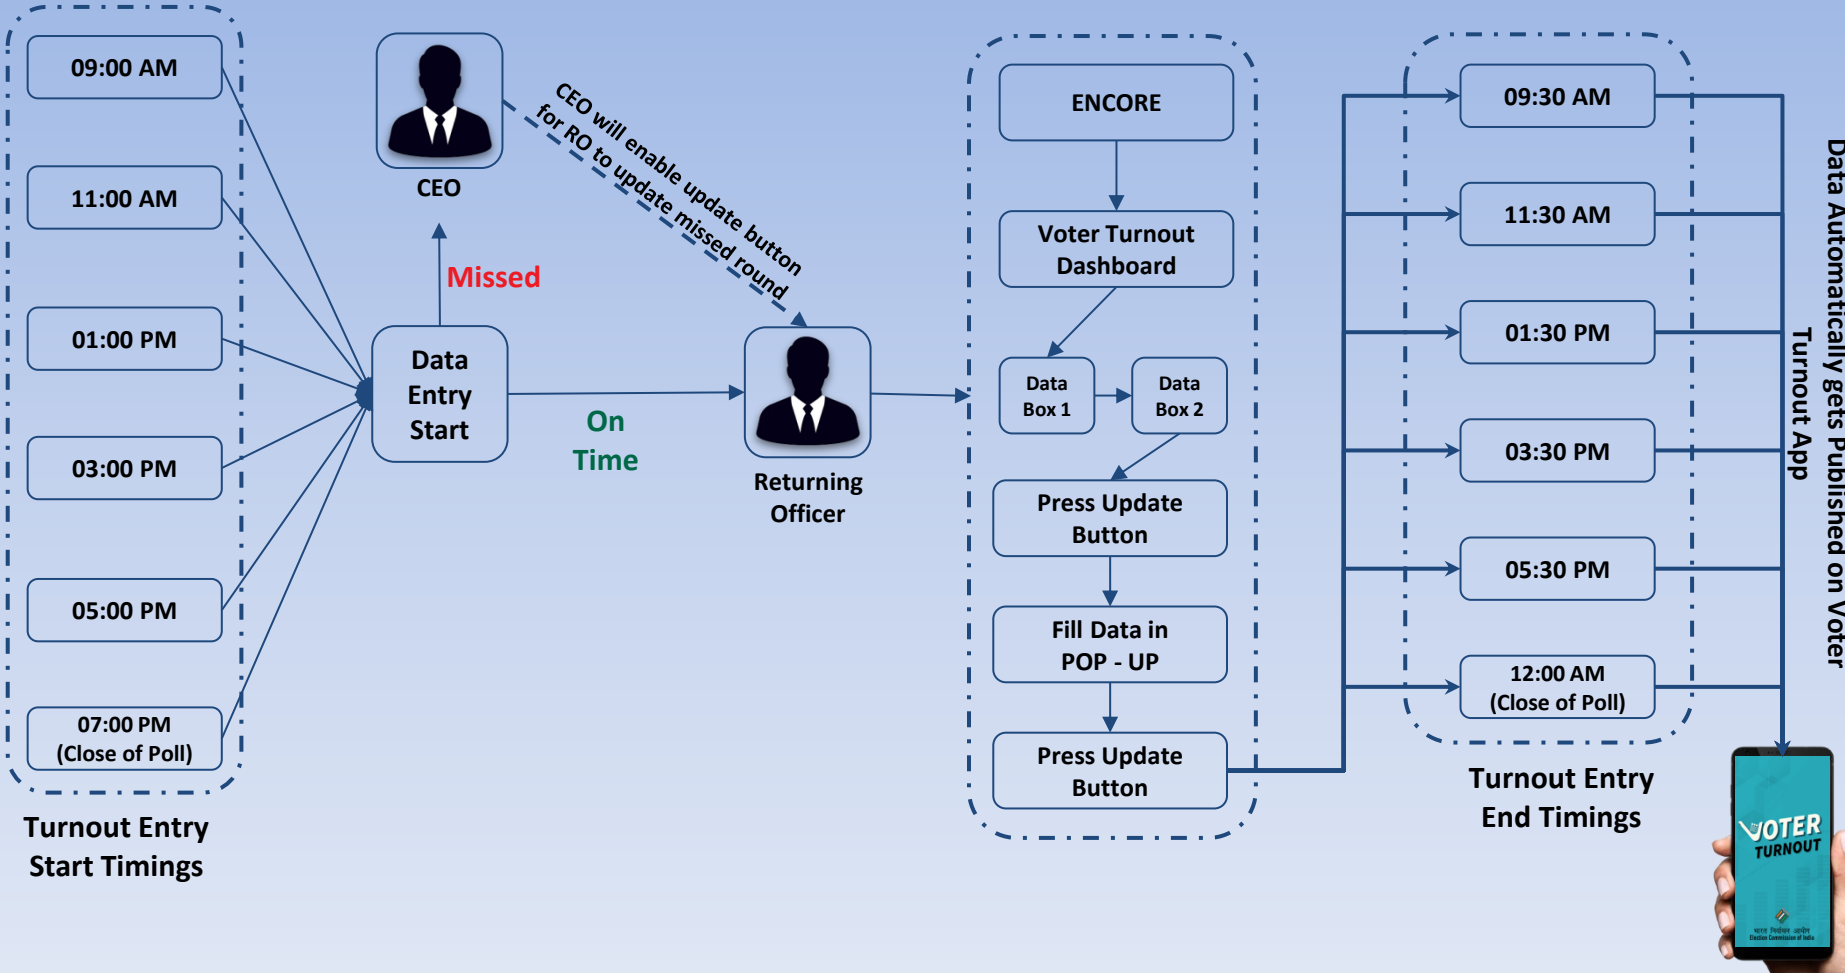

VOTER TURNOUT APP : PROCESS

Two hourly Estimated Voter turnout intervals

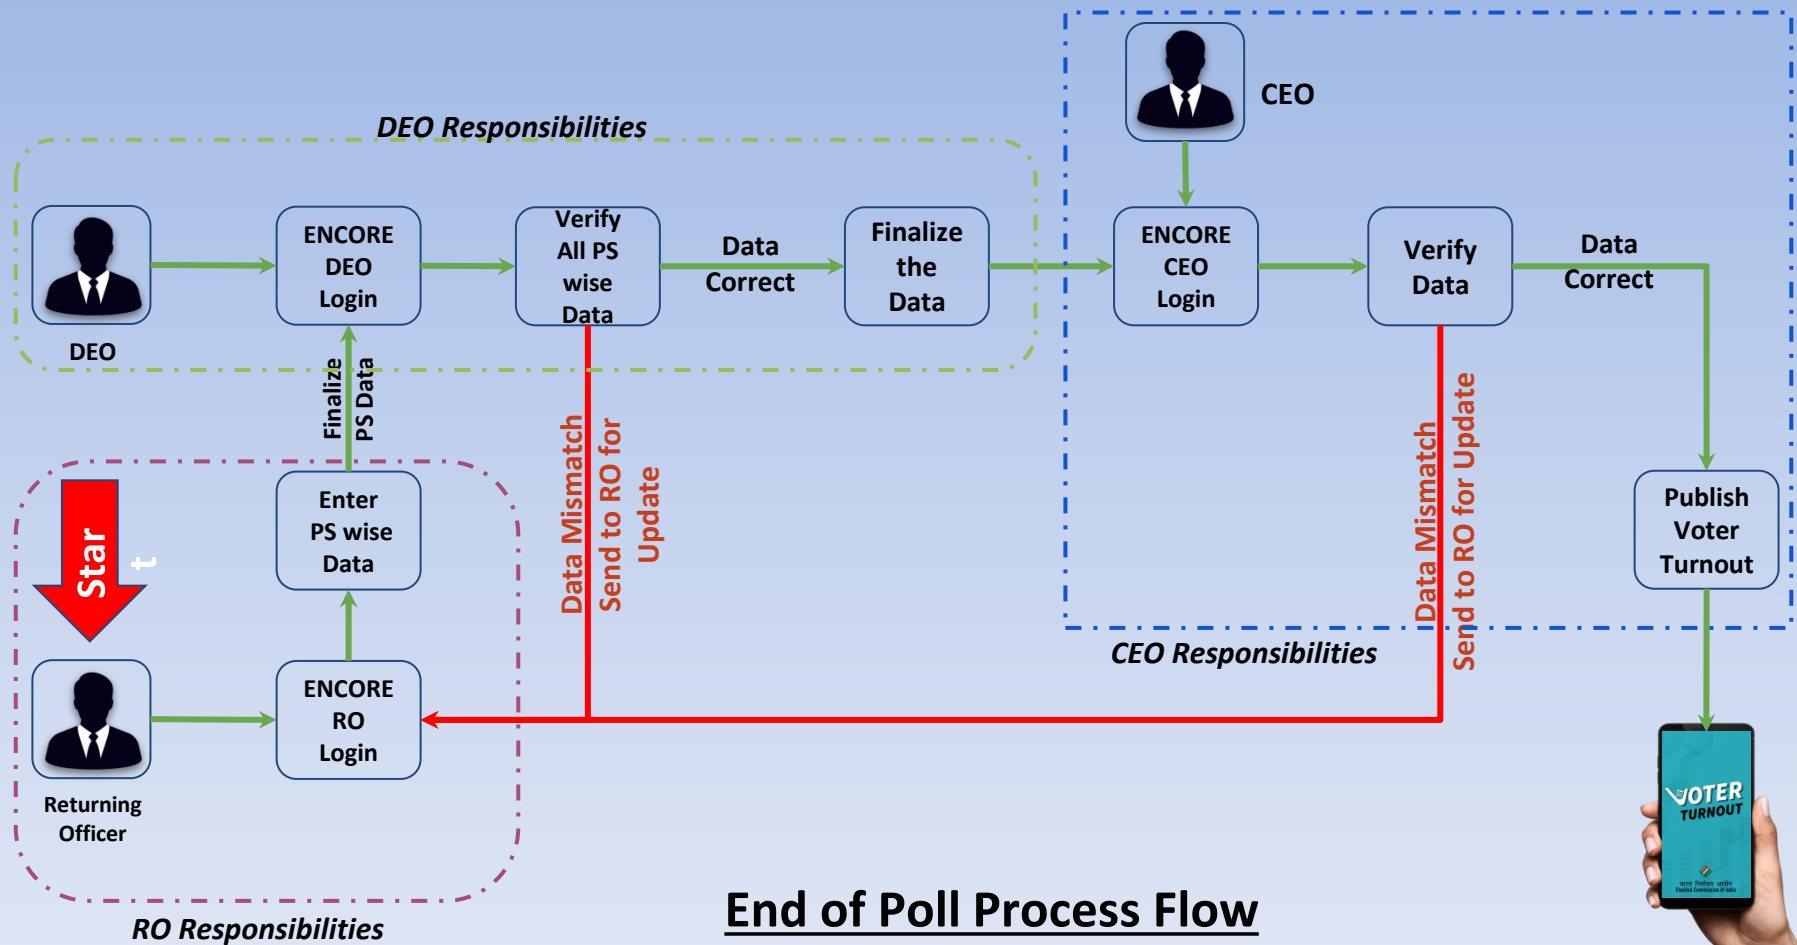

| Poll Turnout Report Timings | Cumulative Voter Turnout | Data Entry Time |
|------------------------------------|---------------------------------|------------------------|
| 9 AM Report | Poll Start to 9 AM | 7.30 AM to 9.30 AM |
| 11 AM Report | Poll Start to 11 AM | 9.30 AM to 11.30 AM |
| 1 PM Report | Poll Start to 1 PM | 11.30 AM to 1.30 PM |
| 3 PM Report | Poll Start to 3 PM | 01.30 PM to 3.30 PM |
| 5 PM Report | Poll Start to 5 PM | 04.30 PM to 5.30 PM |
| CLOSE OF POLL | Poll Start to Close of Poll | Anytime after 3 PM |

Note: The turnout is auto-compiled as and when the ROs enter the data

VOTER TURNOUT : POLL DAY ACTIVITY PROCESS FLOW

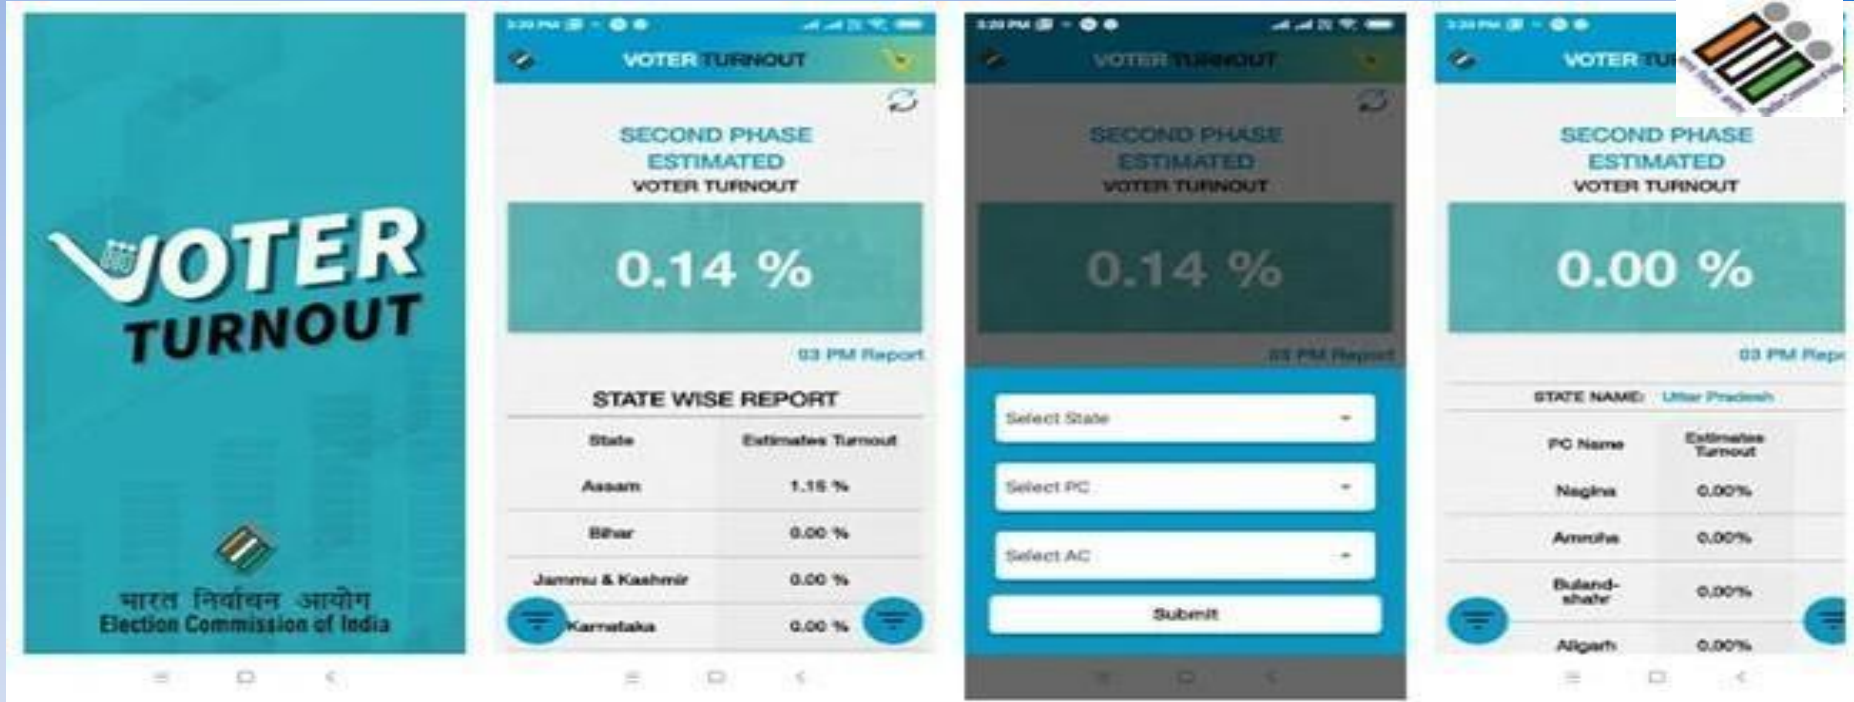

VOTER TURNOUT : END OF POLL PROCESS FLOW

End of Poll Process Flow

VOTER TURNOUT APP : PROCESS

- Estimated turnout available on Phases, States, Districts and ACs
- Filters available for drill down reports
- Facility available to share the data on facebook, twitter, etc.

- *Electors not updated*: ROs to ensure that the electors must be updated well before Poll day else Voter turnout calculation will be affected on Voter turnout app.
- *Wrong voter turnout entry*: ROs must ensure correct entries as it is getting displayed directly to public through Voter turnout app.
- *Delay or missed entries for estimated voter turnout*: ROs must ensure timely entry 2 hourly estimated voter turnout on defined intervals.

Booth App

encore.eci.gov.in

WHAT IT DOES ?

- Used for Officer registration for Booth App
- Monitoring of various reports for Pre-Poll and Poll day activities through Dashboard
- App reduces the queue, helps in faster polling and allows error-free recording of poll turnout without manual intervention.

WHAT IS EXPECTED FROM RO ?

- PS data must be updated & finalized in EMS & ENCORE
- Sector creation and its mapping with PS
- PS Locations and its mapping with PS
- Capturing of Officers details in advance (SO, PRO, PO, BLO)

BOOTH APP : PERMISSION PROCESS

- Account creation (BLO, PRO, PO, SM)
- Alternate number can also be registered for all Booth app officers.
- Pre-poll and Poll day Monitoring through dashboard

BOOTH APP : PITFALLS

- User (BLO,SM,PO,PRO) not registered: ROs note that unless active mobile No. is registered in ENCORE, user will not be able to use BOOTH APP.
- Wrong Officer and Polling station mapping: Wrong mapping will result in wrong data in BOOTH APP. This mapping should be done correctly and verified by ROs.
- OTP for Login not received: If user is not getting OTP, then RO can set PIN through ENCORE and inform the user to get one time login.

- Sector Magistrate app not showing all Polling stations under him: ROs should ensure correct Sector and polling stations mapping else it will reflect wrong polling stations.
- Wrong Polling station location and BLO mapping: ROs should ensure correct mapping of Polling station location with BLOs, only then the BLO app will show the data of all polling stations in that location.

Counting Module

encore.eci.gov.in

WHAT IT DOES ?

- The ENCORE counting application is an end-to-end application for ROs to digitize the votes polled, tabulate the data each round-wise and then take out various statutory reports of counting.

WHAT IS EXPECTED FROM RO ?

- Follow complete guidelines
- Sufficient power backup
- Internet facility with fixed IP
- Verify Contesting candidates details such as candidate's name, address, party name in English and Hindi both.
- Infra requirement at counting centre
- Dedicated technical resources
- Verify Electors data (M/F/O)

Step 1

Round Set up

- Enter number of rounds scheduled for the AC
- Enter number of polling stations & counting tables in the AC

PRE - COUNTING

Step 1

Round Set up

- Enter number of rounds scheduled for the AC
- Enter number of polling stations & counting tables in the AC

Step 2

Account Set up

- Enter details of all the Computer assistant
- Activate account and set password and PIN

PRE - COUNTING

Step 1

Round Set up

- Enter number of rounds scheduled for the AC
- Enter number of polling stations & counting tables in the AC

Step 2

Account Set up

- Enter details of all the Computer assistant
- Activate account and set password and PIN

Step 3

Assign Table

- RO need to assign tables to all the Computer assistants and himself.`

COUNTING STAGE

Step 01

Table wise EVM Votes Entry

- 1) **Enter the Table wise EVM Votes**
- 2) **Print** 'Table wise recording of the Votes' (**TRV**)
- 3) **Validate TRV & Submit**
- 4) Repeat Steps 1) to 3) till completion of all rounds

COUNTING STAGE

BOOTH APP : PITFALLS

- Wrong Candidate and Party details: ROs must double check all the details and provide certificate of data correctness to the CEO office.
- Counting Infra problems at counting centres: ROs must check hardware and network at counting centres, as this may lead to slow connection and delay in entries.
- Wrong data entered and finalized: ROs must carefully use '**finalize option**' *as after that no editing is allowed.*
- Delay in entries: ROs must follow Commission's guidelines to enter correct data on time. Verify 'Round Declaration Form', Publish in ENCORE and then declare outside Counting hall.

- Round set up: Rounds should be setup a day before day of counting. Number of rounds setup can be increased based on requirement, but cannot be decreased, if the entries have started.
- Correction before declaration and publishing of Round data by RO: The user assigned to the table (RO-Computer Assistant/RO) can update the data and verify it through TRV.
- Correction after declaration and publishing of Round data by RO: Only RO can update the data for any table by updating the values, verifying TRV, RDF and then again need to press the “**Publish Round**” Button.

Disclaimer

ECI is displaying the information as being filled in the system by the Returning Officers from their respective Counting Centers.

Index Card Module

encore.eci.gov.in

WHAT IT DOES ?

- It facilitates the Returning Officer to fill the Index card online after counting.
- It contains each and every detail of elections from the schedule of elections to declaration of results.

INDEX CARD MODULE

- This module of ENCORE launched in May 2019 allows RO to fill the Index card online after counting.
- Each and every detail of elections from the schedule of elections to the declaration of results can be entered through this app
- Different statistical reports published on the ECI website for Public view and analysis are generated through this App.
- The publication and verification process has been simplified upon launch of this Application,

INDEX CARD MODULE - FUNCTIONALITY

- **Online Index Card**

- After completion of counting, each RO fills the Index card online for their respective AC.
- Information of elections like Electors, Voters, Candidates, Party, Votes, Results and Returned Candidate, etc.

- **Verification of Data**

- The constituency data entered online by RO is verified by CEO and then by the Statistical Division of ECI.
- The system is designed in such a way that it wrong data entry, if any, is highlighted.

- **Generation of Statistical Reports**

- This system generates different Statistical reports on the verified data of Index card.
- These reports are first generated as a draft, which upon verification by senior officers of ECI are finalized
- After final reports are generated, the complete data is frozen and made non-editable

- REPORTS

- Highlights of Elections
- Party performance
- Constituency wise Voter turnout
- List of Participated and Successful Candidates
- Party wise seats won, etc.

- Wrongly finalised data: If RO has wrongly finalised the data and requires corrections, then a request has to be raised to Statistical division of ECI to de-finalise the data.
- Data entered online is not matched with physical Index card copy: ROs must ensure that the data entered online should exactly match with the hard copy of Index card before finalising the data.
- Delay in entries: ROs should ensure to make the entries on time as per the directions

ENCORE : EXPENDITURE MONITORING

WHAT IT DOES ?

*Expenditure
Monitoring*

encore.eci.gov.in

- This part of ENCORE is for monitoring the day to day election expenditure incurred by the candidate
- This mechanism has been put in place in each constituency.

- Maintenance of the day to day account of election expenditure by the candidate is mandatory.
- The account of election expenditure is required to be submitted within 30 days from the date of the declaration of the result
- DEO Scrutiny Report need to be entered and on the basis of that the system generates reports for the candidates that has not lodged the accounts or not lodged in time or manner

NATIONAL VOTER SERVICE PORTAL (NVSP)

- The user friendly interface of this portal (desktop & mobile) provides a single window quality services to citizen towards higher transparency and ease of access of information.
- The National Electoral search has a responsive UI that works on both desktop and Mobile
- The Electoral Search from over 85 Crore electoral data within a blink of eye is possible due to the use of cloud services & responsive user interface.

- This interface helps the citizen
 - *Search their name* in electoral roll on Details (Name, Relative Name, Age/DOB, State, AC, Location from Google Maps) / EPIC No.
 - *Apply online for registration as new voter*
 - Correction of entries or change of address
 - *Track status of application*
 - Print voter information slip
 - Find their BLO, ERO and DEO etc.
 - *E-EPIC download*

Voter Helpline APP

VHA is an umbrella app for voter related services:

- *Electoral Search*
- *Submitting online forms for Voter registration*
- Checking status of applications
- *Filing Complaints & receiving replies on mobile*
- Verification of Voter name, PS & EPIC details
- Election Schedules
- *All type of forms, Results, Candidate Information*
- Press Notes, SVEEP activities
- Information on EVM and Election

A - APP

Introduction

- Android based mobile application that integrates all the functions of BLO.
- All the features of the erstwhile BLONET App have been integrated with revamped design and user friendly interface.
- Simple, secure and easy to use

Capture GIS coordinates (Latitude/Longitude) of Polling Stations

Collect Feedback on AMF and EMF

Submit forms on behalf of elector

Checklist/Field verification

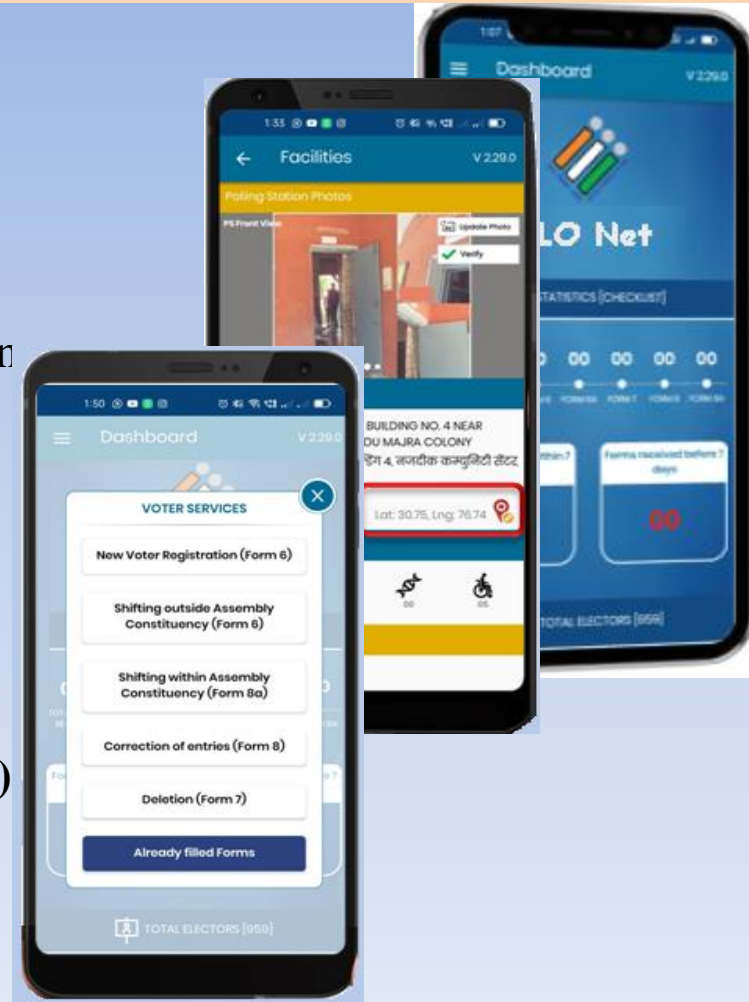

Add/Update address & photos of Polling Booth

BLO APP: OVERVIEW

- This is a dedicated App developed by ECI is for Booth Level Officers & offers all BLO related services and is available on Google Play store.
- This App helps AMF / EMF, GIS location, images, etc. directly from BLO's.
- The key features of this App are Field verification and Form submission
- All the features of the erstwhile BLONET App have been integrated with revamped design and user friendly interface
- This is a Secured, simple and easy to use App
- The GARUDA 2.0 is the new version of this App is already rolled

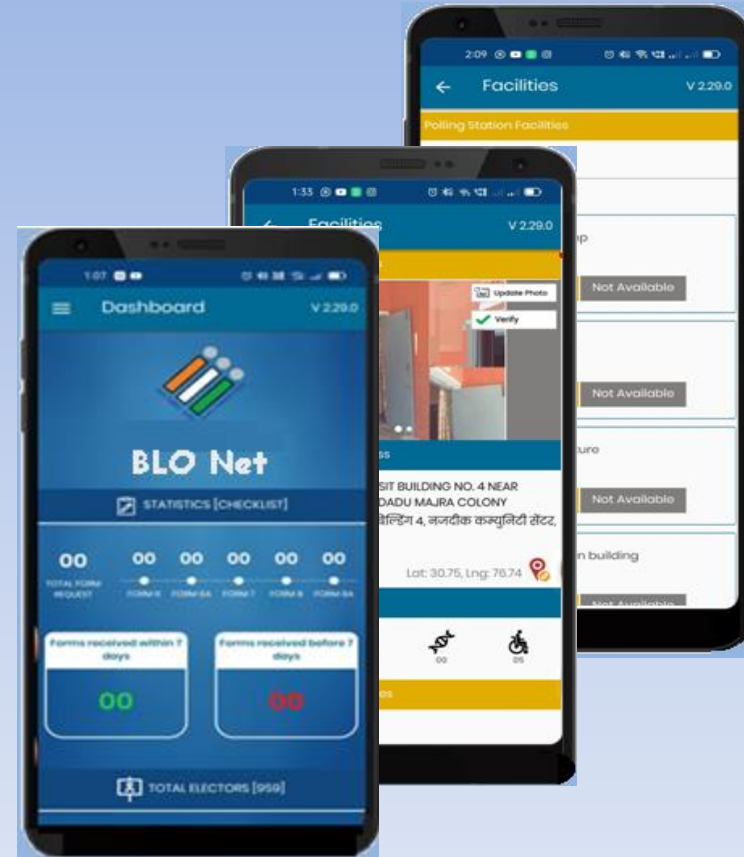

BLO APP FEATURES

- **Checklist & Field Verification**
 - Status of forms received pending for action
 - Total number of forms received pending for action
 - Status of forms received within & before 7 days
- **Capture GIS Coordinates of Polling Station**
- **Submit forms on behalf of Elector (Online / Offline)**

BLO APP FEATURES

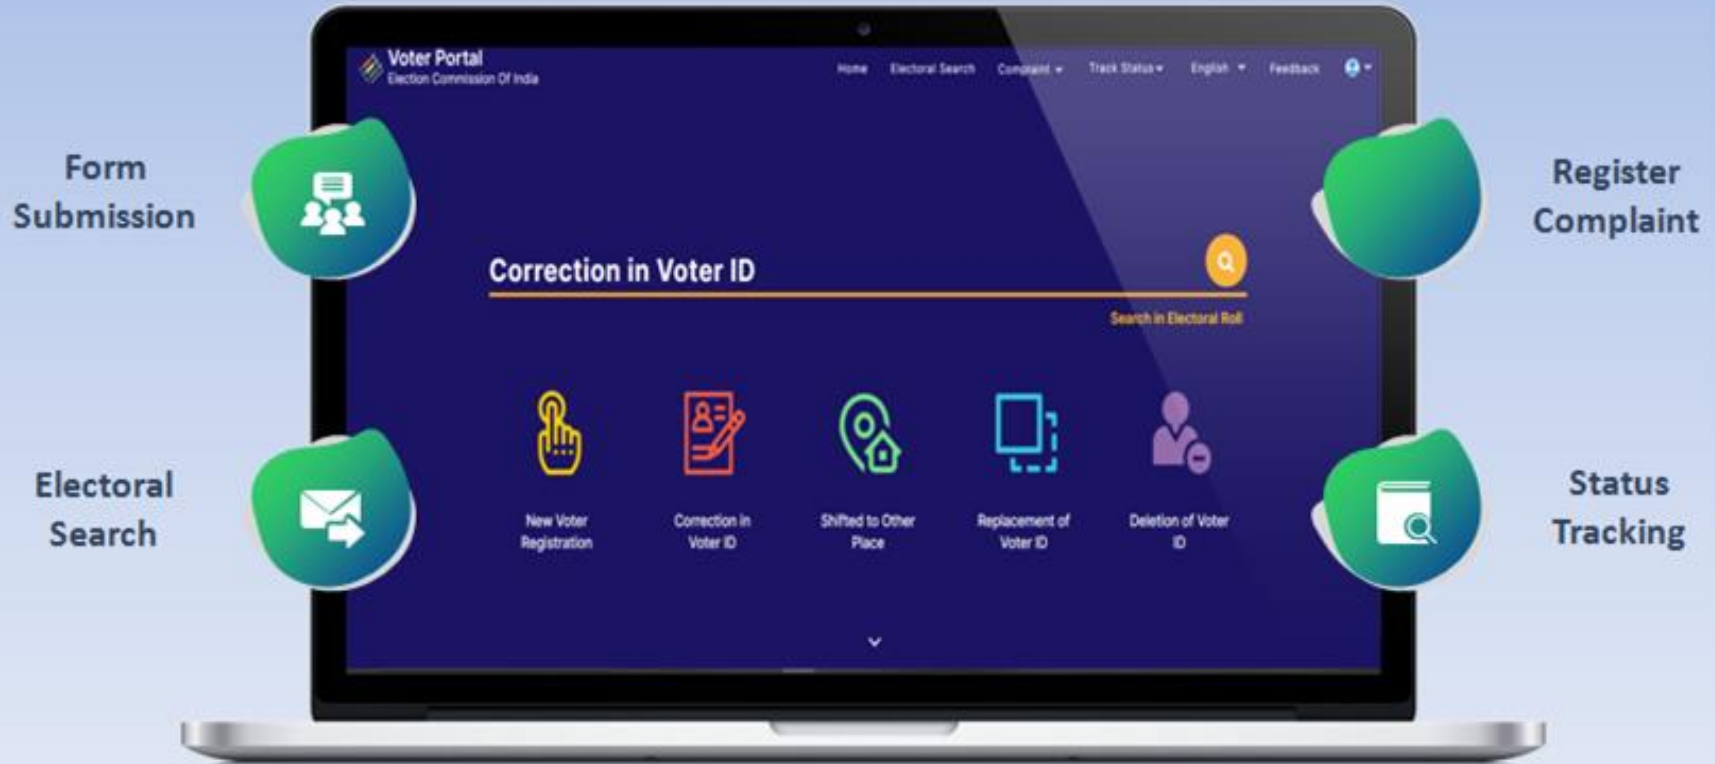

- **Collects Feedback on AMF & EMF (Assured/Essential)**
- **Add/Update & 2 Photos of Polling Station**
- **Auto Assignment of Form 6 for Field Verification**
 - Form filled by BLO for their polling station will get instantly assign them for field verification in their checklist.”

- Quick voter registration
- Hassle free field verification of electors
- Quick search and view of electors details of own polling station in both online and offline mode.
- Go green initiative: Save Paper, Go Electronic!
- Elector analytics for BLOs on the fingertips
- Over 1 Crore forms received from all States & UT's in Voter Helpline app since Oct 2022

- Interactive user friendly interface to apply New Voter registration, alteration in entries, deletion, change of address, overseas, replacement of EPIC (Form-001)

- As per the amendments in Election Laws and Rules under Representation of Peoples Act, 1950 and the Representation of Peoples Act, 1951.

ESMS

ELECTION SEIZURE MANAGEMENT SYSTEM

- Web Based and Mobile based application is designed and developed to digitize data for intercepted/Seized items (Cash / Liquor / Drugs / Precious Metal / Freebies / Other Items) direct from field through Mobile App.
- It also allow Banks to generate QR code based receipt for movement of cash.

- This ECI App was introduced in 33 districts of Telangana in recent elections.
- In this app, the local officers constantly feed info in the app whenever seizures of money, liquor, jewellery and narcotics are made in election-bound State.
- The app gives real time visibility of the seizures and raises a flag to the Election Commission and relevant law enforcing agencies, allowing them to take quick action
- To ensure free and fair elections by appealing to people to pass on information regarding suspicious movement of cash intended for “illegitimate use in elections”.

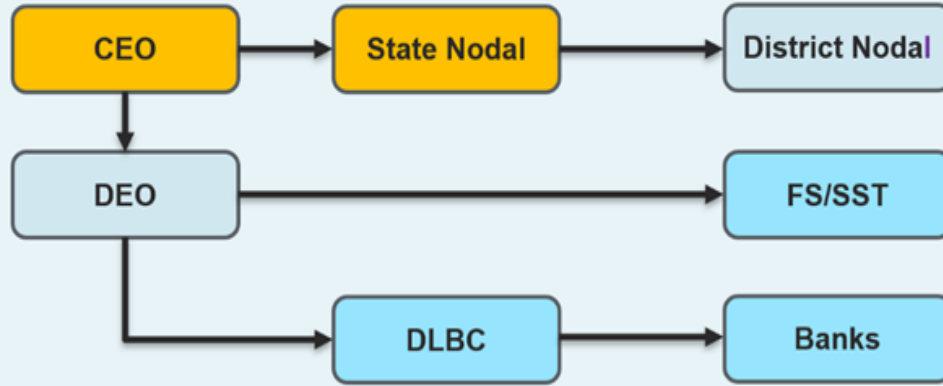

ESMS- STAKEHOLDERS

- State Police Department (SPD)
- Income Tax Department (ITD)
- State Excise Department (SED)
- Central Goods and Services Tax (CGST)
- State GST/Commercial Tax (SGST/CT)
- Directorate of Revenue Intelligence (DRI)
- Directorate of Enforcement(ED)
- Narcotics Control Bureau (NCB)
- Border Security Force (BSF)
- Sashastra Seema Bal (SSB)
